

## Parking Lot Expansion Proposal

The building and grounds committee have been working on a proposal to expand the Church parking lot. The 15 space concrete addition would be on the east side of the existing parking area and provide access out to the street to the north. This reasonable sized plan will allow us to increase our paved parking area, save the existing sycamore tree, plus allow for future parking expansion if needed.

We have had a professional site plan done, gotten approval of West Branch Zoning, approval of the West Branch City Council, the backing of the Church Council, and on September 15<sup>th</sup> we will be bringing it before the congregation for their support.
