

### **Proposed Parking Lot Expansion**

Please see below for further information regarding steps in the parking lot process up to this date.

1. A “want” for additional parking was noted.
2. Discussion and follow-up was done.
3. A proposed site plan was made available to the city.
4. The city approved allowing us to move forward.
5. Ongoing discussions as to funding of this project and the need for a capital funds drive will be determined based on:
  - a. Congregational meeting to approve continuation of the proposed project
    - i. If approved a Capital Campaign Committee formed to determine the type fund raising to be done.
    - ii. If not approved then no further action at this time.
6. The total cost at this time has only been estimated through ongoing discussions with contractors. Rough estimates target the project in the \$25,000 range.
7. The project will continue only if approved by the congregation and only if the capital needs are secured.
8. There is no set completion date at the present time.

The purpose of the September 15 Congregational meeting is to address Step 5(a.) of this process. Do we as a congregation wish to continue with this project keeping in mind we do not want to see it adversely affect mission and benevolence?

Sincerely,

Del Hughes, Council President
